Community Assessment
Referral & Education (CARE)!

Real Solutions for Real Life

- ✓ Is your commercial driver's license restricted due to testing positive for alcohol or drugs?
- ✓ Has your employer requested that you set up an appointment with a Substance Abuse Professional (SAP)?
- ✓ Are you ready to get the process started?

Any person that holds a commercial driver's license and tests positive for alcohol or drugs is required to obtain an evaluation from a licensed Substance Abuse Professional (SAP). Since 1977, CARE (Community Assessment Referral & Education) has been by providing affordable SAP evaluations.

During this process, you can feel confident that you are obtaining your evaluation from a highly qualified clinician with a variety of appointment times to accommodate your busy schedule.

Preparing for your appointment

It is important that you bring the following information with you to your appointment.

Insurance Information

- If treatment is necessary, we will help you coordinate appropriate referrals with agencies that accept your insurance.
- If treatment is necessary and you do not have any health insurance or you do not have any coverage for substance abuse services we will do our best to link you with affordable programs in your area
- We will not bill your insurance for any reason

Employer Information

- Once you have fulfilled your requirements with the Substance Abuse Professional, we will need to send the return to duty information to your employer
- Bring the name, address, and phone/fax number of the contact person at your current or prospective place of employment

What Will Happen During the Evaluation?

Please be aware that we will need to know what substance(s) you tested positive for at the time your initial appointment is set.

Your first visit will consist of a one hour evaluation that will assess your current and past use of substances. At this time, the SAP will determine if any substance abuse treatment or education is necessary, and will help coordinate this through your insurance, or with affordable agencies within the community. Be aware that the SAP will order random drug screens throughout the process at an additional cost to you.

At your follow-up visits, the SAP will evaluate your compliance with their recommendations. The SAP will determine whether or not they will refer you for a return to duty drug screen with your employer or if additional requirements will be ordered.

After your final visit, we will fax over the appropriate documentation to your employer. At this time your employer will have you complete a return to duty drug screen to ensure that you are drug free.
